

WE BRING THE WORLD CLOSER..

FAIRMACSTM

Across All Boundaries

The coming of the 15th century saw the boundaries of the world shrinking. Scores of explorers set sail to discover new countries. They established international trade routes and fostered relationships. It wasn't always smooth sailing, but determined about their abilities, they set their sights on success and charted their course accordingly.

At Fairmacs, we free our customer so that they can focus on their core business. Every project we take up is tackled with undivided attention and expertise. We deliver a range of innovative solutions that are structured to facilitate greater speed and efficiency, be it Freight forwarding, Project cargo or Warehousing.

“Our Vision is to be a leading logistics service provider through constant innovation that enables us to build and operate an integrated world of logistics services that provide absolute customer satisfaction.”

**FAIRMACS...
MOVING YOUR WORLD**

Fairmacs Worldwide

The Network of Fairmacs' offices and agents, extends all over the world. This network empowers the company to offer its customers a, "ONE COMPANY - ONE SYSTEM NETWORK".

Our Logistics Expertise

Our experience enables us to offer our clients customized services. Our expertise being in :-

- Multi-modal transportation
- Precise Documentation
- Prompt Communication
- Transparency in movement
- Status updates

"Swift, Reliable and yet Flexible" is our motto!

LOGISTICS

Fairmacs logistics has an established presence spanning many countries around the world. Our aim is to find cost-effective and speedy solutions to move your freight. From planning to delivery, every stage of the journey is mapped to ensure that your cargo reaches your destination on time.

Fairmacs is connected globally through a very proactive network of offices and overseas partners that are leading names in the industry in their respective countries.

FREIGHT FORWARDING

Fairmacs entered the field of logistics as a Freight Forwarder a few decades ago. Since then, the company has gathered the right expertise and has steadily grown to provide complete logistics solutions.

Our services have the required technology, dedication, and quality to satisfy our customer's requirements. As experienced consolidators and freight forwarders, we have the reach, reliability, and resources to provide you with competent services at the most competitive prices. With offices across India and an extensive global network of promising agents and partners, our assurance is strengthened when we say "nothing is impossible".

Fostering strong ties with the Ocean Carriers/Feeder Operators and Airlines gives us the ability to offer customized services to our Clients for their Shipping requirements.

With our Worldwide Network and Overseas offices, we are in a position to provide **Professional, Timely and Cost Effective** inbound and outbound services at desired origins or destinations.

AIR - SEA

Fairmacs, a complete logistics service provider has expertise in both sea and air shipments. The company also offers an effective combination of Air and Sea services, which is a very competent solution for our customers who look to bridge the gap between time and cost.

With specialization and experience to offer this service to our customers, shipments moving on Fairmacs' Sea+Air service use premium ocean and air carriers and move completely within our global network of offices.

Custom Clearance

Before your vessel docks in, over 120 people work in tandem to clear customs, excise duty, port, and other formalities. When it docks, our C&F division swiftly moves in to clear your cargo so that it can reach its destination on time.

Years of experience has given Fairmacs an in-depth understanding of the Indian Custom formalities and Port regulations. So with us, you can be rest-assured that your shipment will be speedily cleared while maintaining our assurance of cost-effectiveness.

Vessel Chartering

Our expertise in vessel Chartering helps our clients to decide on suitable vessels based on the cargo and their requirements. With many Ship Owners and Ship Brokers as our long standing associates, we are able to identify and offer suitable available vessels at very short notice thus helping cargo owners to achieve their shipments at the earliest.

Our in-house chartering enables us to commercially operate various mid-sized multi purpose vessels in and around Southern Asian region with specialisation in operating vessels of various sizes from 3000 DWT to 12000 DWT for to serve Andaman & Nicobar Islands.

Project Cargo

Fairmacs provides solutions to move hefty cargo and break bulk shipments. Growing FCL volumes enable us to offer innovative transportation solutions. Having scrutinized this domain since 1956, we understand cargo like nobody else does. If you have a need, we have the expertise to move any cargo, anywhere in the world, on time.

Leave the Logistics to us

Domestic Transportation

Domestic transportation includes movement by road, rail and even barges or a combination of any of these to meet our customer's delivery commitments.

We regularly move commodities such as cement, steel, heavy machinery, chemicals, consumer durables and consumables, safely and with a time bound delivery schedule.

Decades of experience as charterers and ship owners has given us access to excellent surface transportation fleets.

Trust us with your cargo.

Warehousing & Distribution

Insurance, Warehousing and Distribution requirements are a part of the cluster of services provided by Fairmacs. We have closed & open storage areas in and around most ports. Maintaining a clean and safe environment for the stored goods is of utmost priority to us. We hence employ state-of-the-art equipment and round-the-clock security. Fairmacs provides customs bonding facilities when required and facilitates Inventory visibility through its 3PL software.

We at Fairmacs, strive to integrate state-of-the-art warehousing facilities with the latest in Information Technology (IT) to deliver fully managed, Third party Logistics services.

Coastal Cargo

We know what it takes to ship cargo along the Indian coast. Every step is carefully planned and executed by our experienced personnel. As vessel owners and charterers, we understand every nautical nuance of the cargo movement business as well as its feasibility.

Having been an effective service provider for transporting goods for the past 5 decades, Fairmacs can ensure immediate berthing, efficient handling of cargo, and competent loading and discharge rates. Our hands-on, transparent approach ensures a good working relationship with Customs Clearances, the Dock Labour Board, and the Mercantile Marine Department.

Fairmacs takes pride in highlighting that it has been one of the major contributors to the development of Andaman & Nicobar Islands. As far as these Islands are concerned, the Company has been a key participant in the Coastal trade there.

The Fairmacs Promise

As companies expand their horizons, high volumes of cargo move across the world. In response, we have evolved global point-to-point services. Our multimodal approach gives us the flexibility and ease to deliver cargo at any location – by sea, air, rail or road. We understand the value of your time and have the expertise to transport your goods swiftly and safely.

Work with professionals and you'll find immense commitment. There are no hidden costs and we always keep our word. Textiles, automobiles, engineering goods, project cargo, perishables, commodities and minerals – we've moved a variety of cargo.

*In our business, only one thing counts –
Punctual and Safe delivery, anywhere in the world.*

A container for every cargo need
